

# ***DOOR TO DOOR HEALTH SURVEY AT VILLAGE MANKROLA***

---

A door to door health survey by students and faculty of Physiotherapy at village Mankrola on 6<sup>th</sup> August 2017 where they screened females in different age groups suffering from problem of Urinary Incontinence.

They were demonstrated pelvic floor exercises as well as given advice about identifying risk factors that can lead to this problem.

They were regularly followed up by the team of Physiotherapists. They were issued a card and can visit Physiotherapy OPD of SGT Hospital too.
