

# ***CONTINUOUS PHYSIOTHERAPY HEALTH AWARENESS PROGRAMME***

---

A skilled team of Physios of Faculty of Physiotherapy from Final year, Interns and Masters students organized an outreach program where they visited villages near SGT University to find out the musculoskeletal related injuries and risk factors which was followed by the ergonomic care which helps them in working more effectively and pain-free. The outreach program started in May 2017 and will continue providing such health care services to the rural area until September 2018.
